

BASIC UNITS OF LIFE®

IMMUNO MAX

Immune Defense • Antioxidant Protection • Cellular Resilience

CELLCODE's IMMUNO MAX is a comprehensive botanical and mushroom-based immune support formula designed to strengthen the body's natural defenses and promote immune balance.* This advanced blend combines time-tested herbal extracts, medicinal mushrooms, and antioxidants that work synergistically to support both innate and adaptive immune responses.*

IMMUNO MAX helps regulate cytokine activity — the signaling molecules responsible for immune coordination — to maintain a balanced inflammatory response and optimal immune readiness.* The carefully standardized herbal extracts in this formula provide consistent levels of active compounds, ensuring potency and reliability in every serving.*

Featuring clinically studied botanicals such as Echinacea, Andrographis, Astragalus, and Green Tea Extract, along with Elderberry, Beta-Glucans, and medicinal mushrooms, this formula supports both immediate and long-term immune resilience.* Added Arabinogalactan (as ImmunEnhancer®) nourishes beneficial gut bacteria, helping to strengthen the gut-immune connection and maintain microbial balance.*

From seasonal challenges to everyday immune stressors, CELLCODE IMMUNO MAX provides targeted support for antioxidant defense, inflammatory balance, and cellular protection.*

Benefits

- **Promotes a Normal Immune Response:** Helps the immune system respond efficiently to environmental and seasonal challenges.*
- **Supports a Healthy Inflammatory Process:** Regulates cytokine activity for balanced immune and inflammatory function.*
- **Enhances Antioxidant Status:** Provides potent polyphenols and flavonoids to protect cells from oxidative stress.*
- **Strengthens the Gut-Immune Axis:** Contains arabinogalactan to promote healthy microbial diversity and gut integrity.*
- **Encourages Cellular Resilience:** Mushroom extracts and beta-glucans support immune cell activity and vitality.*

Highlights

- Comprehensive immune support formula featuring standardized botanicals and mushrooms*
- Contains Echinacea (4% echinacosides) and Andrographis (4% andrographolides)*
- Includes Astragalus, Green Tea Extract (98% polyphenols, 45% EGCG), and Elderberry for antioxidant support*
- Features Beta-Glucans, medicinal mushrooms, and ImmunEnhancer® Arabinogalactan for gut and immune synergy*
- Vegan, non-GMO, gluten-free, dairy-free, soy-free

Recommended Use

Take 4 capsules per day with meals or as directed by your health-care practitioner.

Immunitone Plus™

Botanicals and Mushroom Extracts

IMMUNE HEALTH

Immunitone Plus™ is a comprehensive herbal formula designed to support healthy immune system function.* It contains herbs that support normal immune function.* These herbs help support the balance of cytokines, which are the regulatory proteins released by immune cells as part of a normal immune system response.* The standardized herbs in this formula contain optimal and consistent amounts of the most active ingredients.

The herbs and mushrooms in Immunitone Plus™ help the immune system respond normally to potential threats.* Echinacea and Andrographis are herbs that promote a healthy inflammatory response to help support normal immune function.* Astragalus, green tea extract, medicinal mushrooms, and beta-glucans help support the immune system to respond normally to potential threats.* Elderberry helps support antioxidant status in the body, which also aids the immune system to function normally.* Arabinogalactan helps to promote normal microbial diversity in the gut, which also supports immune health.*

Benefits*

- Supports a normal immune response
- Promotes a healthy inflammatory response
- Supports antioxidant status in the body

Recommended Use

Take 4 capsules per day with meals or as directed by your health-care practitioner.

ImmunEnhancer® is a registered trademark of Lonza, Inc.
