

BASIC UNITS OF LIFE®

N-Acetyl-L-Cysteine (NAC)

Cellular Detox • Immune Defense • Antioxidant Protection

CELLCODE's NAC (N-Acetyl-L-Cysteine) delivers 900 mg per capsule of a highly bioavailable, clinical-strength amino acid that supports antioxidant defense, detoxification, and cellular resilience.* NAC acts as a direct precursor to glutathione — the body's master antioxidant responsible for neutralizing free radicals, maintaining cellular integrity, and supporting liver detoxification.*

Glutathione is essential for counteracting internal stress generated by daily metabolic activity, environmental exposure, or intense physical exertion.* When internal oxidative stress increases, the body's supply of glutathione can become depleted.* Supplementing with NAC helps replenish this critical antioxidant, ensuring the body can continue to efficiently neutralize free radicals and maintain optimal cellular function.*

By promoting healthy glutathione production, NAC supports liver health, detoxification, immune defense, and respiratory function. It also aids in muscle recovery, brain health, and reproductive wellness, helping to maintain resilience across multiple systems. Found naturally in plants such as onions, NAC offers superior bioavailability compared to direct glutathione supplementation, making it one of the most effective ways to strengthen the body's internal defense network.*

In periods of increased physical or metabolic demand — from strenuous exercise to everyday oxidative stress — CELLCODE NAC provides the foundational antioxidant support your body needs to recover, repair, and perform optimally.*

Benefits*

- **Promotes Normal Glutathione Status:** Replenishes the body's master antioxidant to protect against oxidative stress and cellular damage.*
- **Supports Healthy Liver Function and Optimal Detoxification:** Enhances the liver's natural detox pathways for efficient toxin clearance.*
- **Supports Antioxidant Status and Healthy Inflammatory Responses:** Protects cells from oxidative damage and promotes balanced inflammation.*
- **Promotes Muscle Function and Recovery:** Helps maintain muscle performance and supports recovery following exertion.*
- **Supports Brain, Lung, and Reproductive Health:** Provides broad-spectrum antioxidant protection across key organ systems.*

Highlights

- Pure N-Acetyl-L-Cysteine (NAC) — clinically validated precursor to glutathione*
- Promotes liver detoxification and antioxidant protection*
- Supports respiratory and immune health through enhanced cellular defense*
- Non-GMO, vegan, gluten-free, dairy-free, soy-free
- Formulated for cellular protection, detoxification, and recovery support

Recommended Use

Take 1 capsule per day or as directed by your health-care practitioner.

Consult with your health-care practitioner about your specific circumstances and any questions you may have about this product.
