

BASIC UNITS OF LIFE®

VITAFIL

Circulatory Health • Cognitive Clarity • Vital Energy

CELLCODE's VITAFIL is a premium blend of clinically studied nutrients and botanicals formulated to support cardiovascular performance, cognitive function, and overall vitality.* This advanced formula enhances nitric oxide production, improves circulation, and supports the brain and heart with targeted antioxidant protection.*

L-Citrulline and beet root extract promote healthy blood flow and oxygen delivery by supporting natural vasodilation.* These ingredients help sustain endurance, reduce fatigue, and support optimal exercise recovery.* Careflow™ mango and hawthorn berry complement these effects by improving microcirculation and supporting healthy blood pressure and arterial function.*

To strengthen cardiovascular resilience, Arjuna extract and Schisandra berry deliver antioxidant and adaptogenic support — protecting the heart from oxidative stress while promoting balance in the body's stress response.* Meanwhile, vinpocetine enhances cerebral blood flow to sharpen focus, memory, and mental clarity.*

Whether you're an athlete seeking better endurance, a professional looking for sharper cognitive performance, or simply supporting long-term heart and brain health, VITAFIL provides comprehensive cellular and vascular support for sustained vitality and focus.*

Benefits*

- **Supports Cardiovascular Health:** Promotes nitric oxide production for optimal circulation, blood pressure, and oxygen delivery.*
- **Enhances Cognitive Function:** Boosts focus, memory, and mental clarity by improving cerebral blood flow.*
- **Promotes Cellular Energy & Performance:** Supports mitochondrial function for sustained stamina and recovery.*
- **Protects Against Oxidative Stress:** Combines antioxidants and adaptogens to defend cells from free radical damage.*
- **Supports Stress Resilience:** Adaptogenic herbs promote calm endurance and overall vitality.*

Highlights

- L-Citrulline supports healthy vasodilation and muscular endurance*
- Beet Root Extract enhances nitric oxide levels and cardiovascular performance*
