

BASIC UNITS OF LIFE®

# VITALIEVE

*Pain Relief • Inflammation Support • Tissue Recovery*

CELLCODE's VITALIEVE is a comprehensive, science-based formula designed to support pain management, reduce inflammation, and promote tissue repair.\* It combines clinically researched ingredients such as PEA (Palmitoylethanolamide), Boswellia, MSM, and Bromelain with synergistic botanicals that target pain pathways at their source.\*

By addressing inflammation, oxidative stress, and nerve signaling, VITALIEVE provides multi-layered relief for those experiencing chronic or acute discomfort. Its blend of natural anti-inflammatories and adaptogens supports joint mobility, nerve health, and recovery from physical activity or injury.\*

Unlike over-the-counter pain medications that only mask symptoms, VITALIEVE works with the body's natural systems to promote long-term comfort and resilience. PEA supports balanced pain signaling through the endocannabinoid system, while botanicals such as California poppy and skullcap promote relaxation and restorative sleep — vital for healing and recovery.\*

This powerful combination of plant-based nutrients helps maintain comfort, flexibility, and calm throughout daily life. Whether you're recovering from physical strain, managing ongoing pain, or seeking a natural approach to inflammation control, VITALIEVE offers comprehensive support for total-body relief.\*

## Benefits\*

- **Natural Pain Relief:** Addresses discomfort and inflammation using evidence-based botanicals and nutrients.\*
- **Nerve Health Support:** Promotes healthy nerve signaling and comfort, especially in neuropathic pain conditions.\*
- **Joint Flexibility & Mobility:** Helps reduce stiffness and supports smooth, comfortable movement.\*
- **Tissue Repair & Recovery:** Enhances collagen synthesis and supports recovery after exertion or injury.\*
- **Calm & Resilience:** Promotes stress reduction and supports restful sleep disrupted by chronic pain.\*

## Recommended Use

Take 2 capsules daily, or as directed by your health-care practitioner. For acute discomfort, consult your provider for individualized dosing. Best taken with food to support absorption and minimize stomach upset.

## Highlights

- PEA (Palmitoylethanolamide) supports balanced pain signaling and nerve comfort\*
- Boswellin® (Boswellia serrata extract) promotes joint mobility and reduces inflammation\*
- Bromelain aids tissue repair and recovery after injury or exercise\*
